

**IMPEX INDIA**, Promoted by **Mr. Shyam Pareek**, is a leading Mines Owner, supplier and exporter of Indian Green Marble and Exclusive Sandstone has quality products famous for their beauty, endurance and texture.

**IMPEX INDIA** inherits the legacy of dedicated efforts, quality products and high priority to customer care and satisfaction.

Quality is not just our organisational objective, but is a word which brings forth a whole value system. A value system marked by a continuing quest for excellence in everything we do. It is a code of conduct which reflects the highest standards of integrity, a work culture which treats people with respect and dignity.

Our policy is to provide products of high and consistent quality to achieve customer satisfaction through self discipline, dedication and commitment. We follow rigid quality control procedures, from the quarrying stage to the packing stage. Moreover, we offer our services of quality control and inspection to our regular buyers, for goods exported by other factories in India.

Over the years, **IMPEX INDIA** has earned a high degree of credibility with its broad clientele base as the most reliable and consistent supplier of Indian Green Marble and other exclusive natural stone varieties.

A varied range of products provide architects & designers a variety of high quality building stones to work with. With our superior material selection & value engineering experience, we can furnish quality stone at competitive prices.

We have our own quarries of exclusive Indian Green Marble in **Keshriyaji near Udaipur** and Grey Dark Sandstone in **Bijoliya near Bhilwara** in Rajasthan. state-of-art licensed production and dressing facilities complemented by extensive mobile labour permits us to maintain superior stone processing capabilities.

Consistent and committed efforts of the company in offering world-class products to meet the most stringent quality standards has earned a lasting reputation as a dependable exporter.

We look forward for the opportunity to furnish your specific requirements.
